0508TempFence is New Zealand’s preferred specialist in temporary fence hire.

With over 2 decades of experience in the industry, we offer complete site solutions alongside competitive prices, fast reliable service and industry leading products.

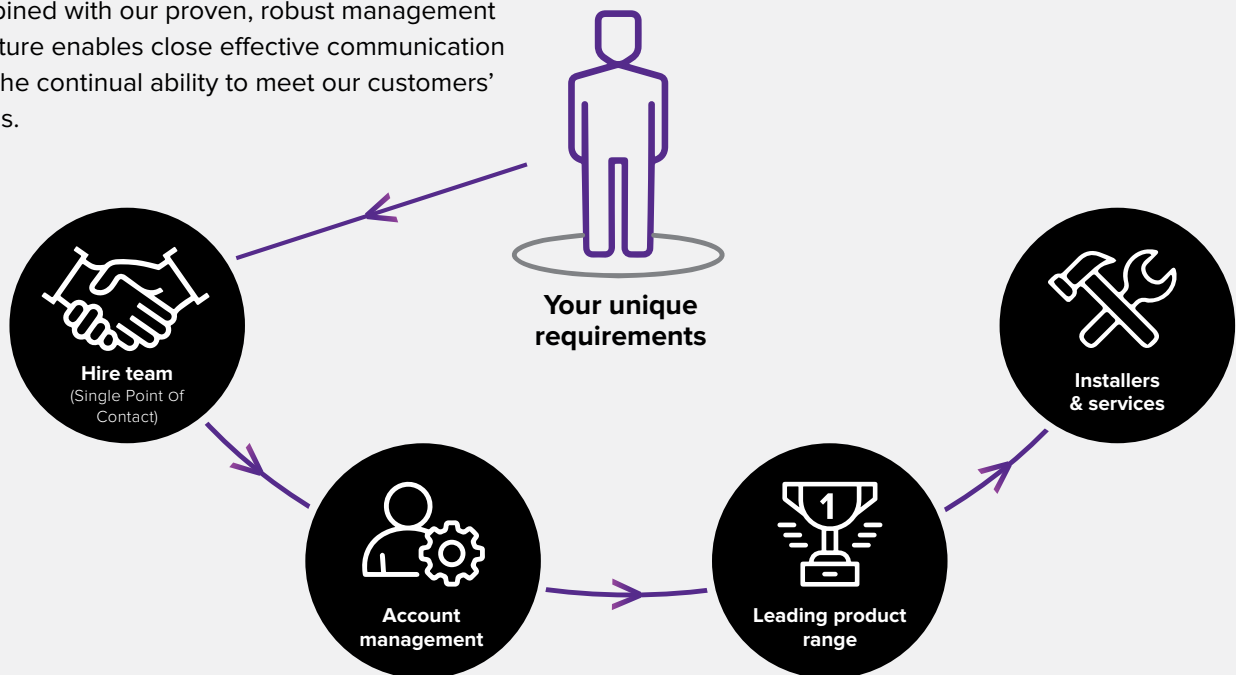

We ensure that our customers can get their job done in a safe and secure environment. Whether you

work in; infrastructure, civil, industrial, commercial, residential or events our goal is to provide a service that makes your job or event run that little bit smoother. With our vast experience, we know exactly what works on site.

All our products are fully compliant to New Zealand Standards. With branches in Auckland and Christchurch, we have New Zealand covered.

DEDICATED ACCOUNT SUPPORT

We provide dedicated account support. This combined with our proven, robust management structure enables close effective communication and the continual ability to meet our customers’ needs.

TEMPORARY FENCE

Temporary construction fence is vital when it comes to managing and protecting your worksite. Whether the need is to prevent the public from entering a hazardous site, to providing security from equipment theft, to ensuring health and safety requirements are met, we have a temporary fencing solutions to help you. Our infrastructure systems have been specially designed and engineered to perform on any major project and with our unwavering commitment to OH&S and using quality products, we can provide unrivalled site security and safety solutions.

Capabilities include:

- Any size site, any hire period
- Fully engineered systems
- Night & weekend works

Projects include:

- Road
- Rail
- Bridges
- Tunnels
- Airports
- Telecommunications
- Water
- Ports
- Energy
- Sewers

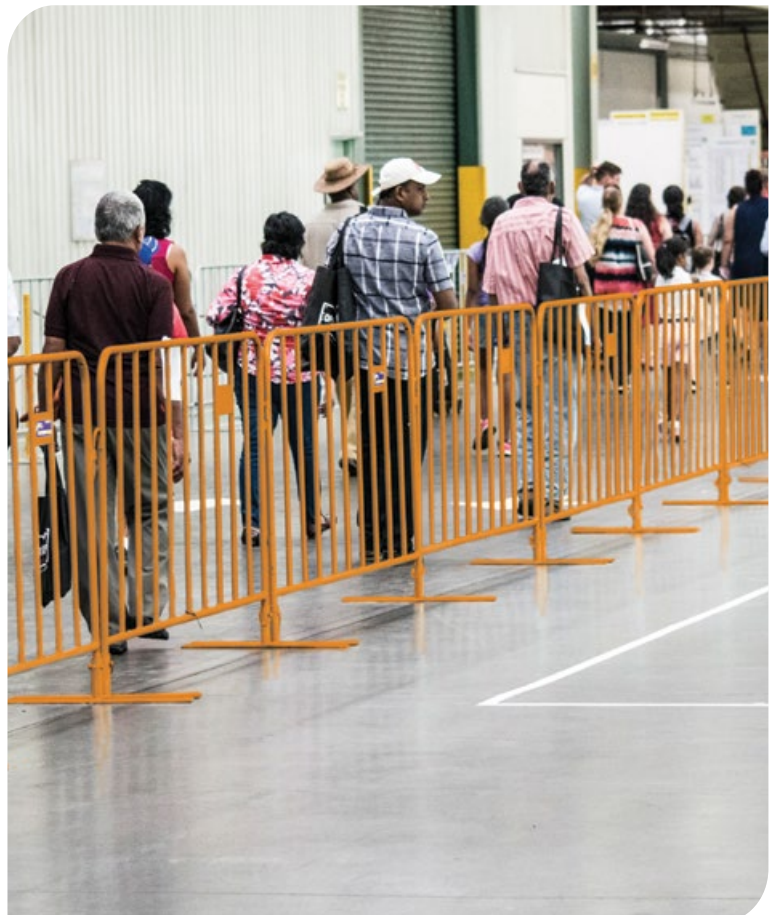

CROWD CONTROL BARRIERS

Running a construction site, event or gathering? Crowd control barriers are a must for creating a safe and secure environment.

Using crowd control barriers is vital to maintaining safe crowd flow. Whether for employees, guests, or the general public; it's important to have the appropriate temporary fencing solution to suit your situation. Over the years we have supplied crowd control barriers to festivals, concerts, exhibitions, sporting events and worksites. We have the expertise to ensure your worksite or event is both safe and secure, keeping people away from potential hazards while ensuring the safe movement of people.

Our strong, sturdy and durable crowd control barriers are lightweight and easy to install. With stable flat feet, they reduce the risk of tripping and have holes for pegging or dyna-bolting.

SEMI PERMANENT FENCING RAMMED POST

When you require something stronger and sturdier than normal temporary fence. Then you need our semi-permanent fencing. Our Rammed Post system has thick walled posts which are driven into the ground, and clamped to the panels. Specially engineered and designed to withstand very harsh conditions and high wind forces.

Benefits:

- No need to use temporary fence feet and bracing
- No tripping hazards
- No concreting required, no residual damage

The rammed post system is suitable for most civil, commercial, residential, major road & infrastructure works and large scale events.

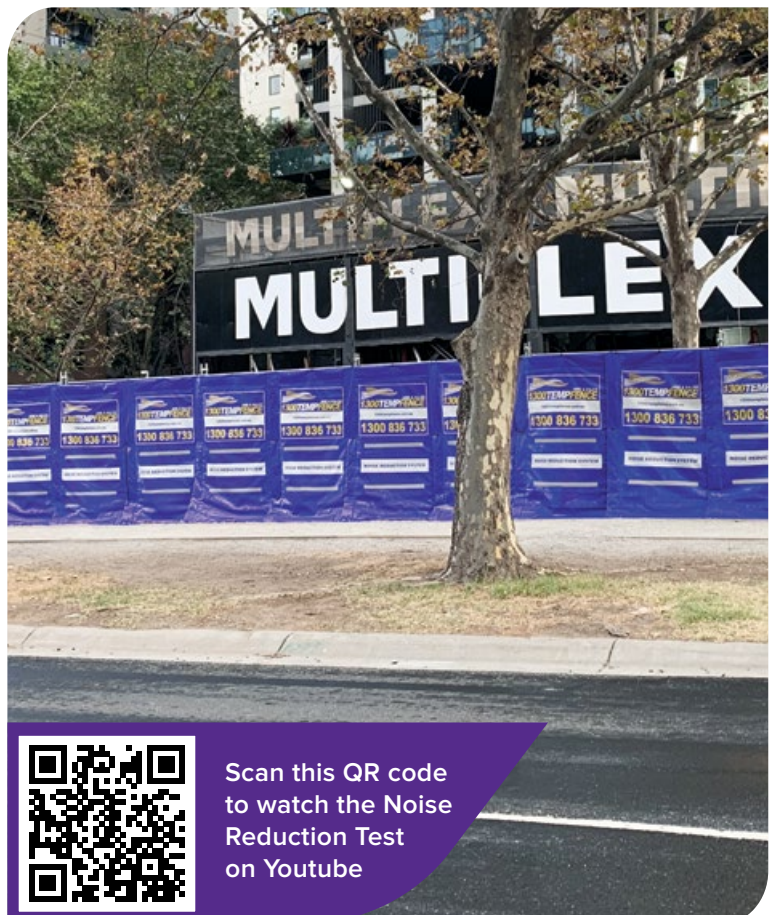

NOISE REDUCTION BARRIERS (Acoustic Curtains)

Needing a temporary noise reduction solution? Our noise reduction barriers are a must to help protect local communities and employees from the harmful effects of excessive noise. Our noise reduction barriers have been designed using world-leading acoustic technology. Made from high quality, lightweight, water-resistant PVC they provide the most effective temporary sound solution. Simple to transport and easy to install our premium barriers are low-centred to ensure noise can't penetrate beneath and with a strong insulated core they provide up to 28 decibels of sound absorption performance.

Improves your capabilities on site:

- Work in public spaces
- Use bigger machinery
- Conduct night works
- Reduce event generator noise
- Indoors & outdoors

PORTABLE TOILETS

Whether you are running a construction site, event or own a rural property, we have the portable toilet to satisfy your requirements

We provide safe, comfortable and hygienic mobile restrooms. Our versatile range is both modern in design yet ergonomically friendly. Designed using the latest technology our portable toilets are durable and built to withstand the demands of high usage and frequent movement.

All our toilets come with a Fresh Water Flush. This provides the added benefit of increased sanitation and cleanliness, reducing the spread of waste and germs.

We offer weekly servicing.

SOLAR / WIRELESS SITE CAMERAS

Monitor and protect your site and assets with our solar/wireless security camera systems. Available as either single or double camera units with either above ground or in ground installation. Reduce the risk of theft and gain peace of mind that your site or venue has complete 24/7 visibility.

Benefits

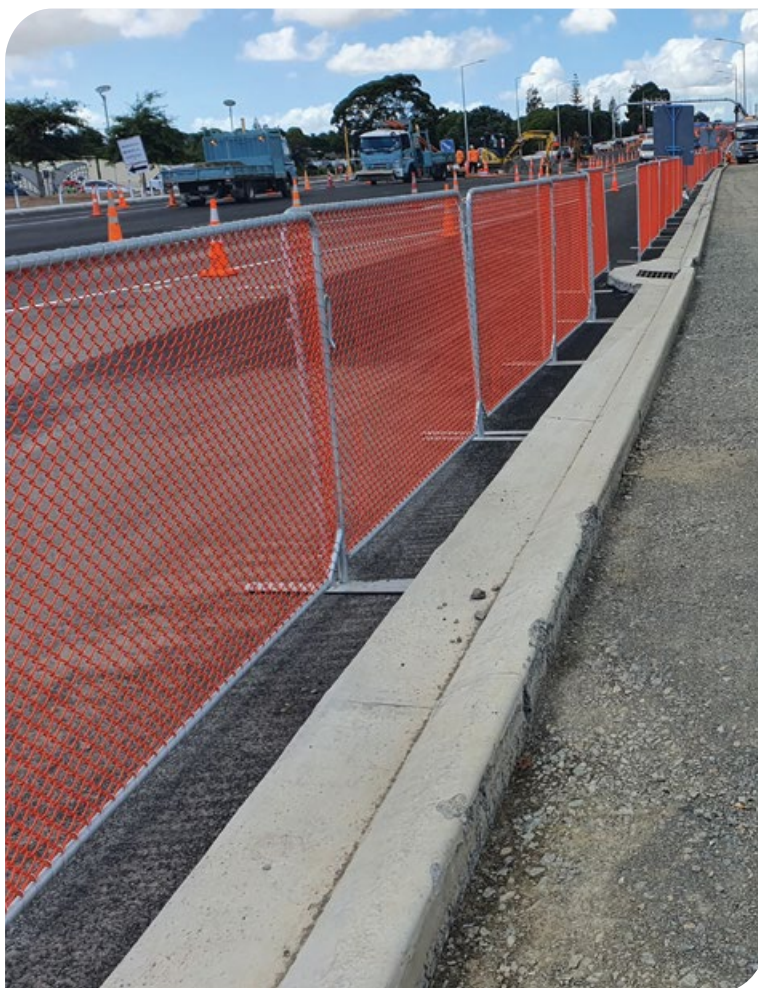

- Solar & Battery Powered
- Uses Telstra 4G Wireless internet
- High quality 4MP camera
- Advanced motion detection up to 20m range
- Email and push notifications to your mobile or tablet when motion is detected
- Flood light & strobe light can activate when motion is detected

CONSTRUCTION BARRIERS

Our industry leading construction barriers are ideal for ensuring public safety on your worksite. Built to include a highly visible netted mesh, with a 30mm x 30mm infill. They are designed to meet the Code of Practice for Temporary Traffic Management's (CoPTTM) requirement for Child Proof In-Filling of security fencing.

Robust and durable, these lightweight barriers, are quick and easy to install. With stable flat feet to reduce the risk of tripping and added holes for pegging or dyna-bolting for extra stability.

TEMPORARY POOL FENCING

Building or renovating a pool? Ensure your site is safe with our high-quality temporary pool fencing.

Whether it is for a public or privately owned swimming pool, we can help. All our temporary pool fence solutions comply with the Building (Pools) Amendment Act 2016. Our barriers are not only reliable, sturdy and secure, but simple and easy to install and dismantle. With self-closing pool gates we ensure the highest level of safety. Providing you peace of mind that all visitors, family or construction workers are safe on your property.

SHADE CLOTH

Ideal for sun protection and privacy screening. Our heavy duty, UV protected Shade Cloth will last for years. Wide variety of colours and shades available.

Shade rating options: 50%, 70%, 90%

Colour options

● Black ● Blue ● Green ● Sandstone ○ White

BARBED WIRE

Made to the highest standards, using premium grade wire.

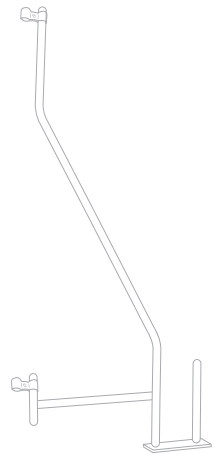

1, 2 & 3 rows are available

SUPPORT STAYS

Our specially designed Support Stays provide extra bracing strength to help prevent your temporary fence falling over in high wind areas or, if Shade Cloth has been installed. It can be used individually, or in conjunction with our hook stays for ultimate strength and stability.

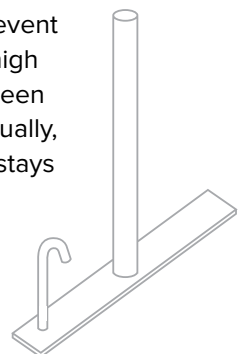

- Requires 1 to 3 feet and 2 clamps
- Can be used with up to 5 feet for some wind requirements

HOOK STAYS

Our specially designed Hook Stays act as an anchor point along the bottom of temporary fence panels to help prevent them from lifting or falling over in high wind areas or, if Shade Cloth has been installed. They can be used individually, or in conjunction with our support stays for ultimate strength and stability.

- Requires 1 to 3 feet
- Can be used with up to 5 feet for some wind requirements

DOG BARS

Ideal for containing animals within a fenced area. Prevents children/balls going under the fence on school construction sites.

Dimensions
