## 0508TempFence is New Zealand's preferred specialist in temporary fence solutions.

0508TempFence has grown to be one of New Zealand's leading temporary fencing solution companies by providing competitive prices, fast, reliable services and industry leading products.

Since 1999 we have been developing our product range and systems with the help of industry experts to ensure you always receive the best quality products. Through our vast experience in temporary fencing, we know exactly what works on site.

All our products are fully compliant to New Zealand standards. With branches in Auckland and Christchurch, we have New Zealand covered.

# TEMPORARY FENCING

## MAXI PANEL

### 2.4M HEAVY DUTY WELDED MESH

When quality, versatility and durability are paramount, you need the commercial grade "Maxi Panel". Strong and built for long life, it is easily transported on the tray of a ute. The Maxi Panel comes complete with anti-climb weld-mesh infill for maximum security.

#### Dimensions:

**Panel size:** 2400mm (W) x 2100mm (H)

**Frame:** 32mm O.D. 2mm pipe wall thickness

**Infill mesh:** 4 x 4mm

**Infill mesh spacings:** 150 x 60mm

**Weight:** 22kg

**Finish:** hot dipped galvanised 42 microns

Our Temporary Fencing systems fully comply to local council requirements.

When value is paramount, you need our Smart Panels. Available in two sizes, they're strong, durable and versatile.

## SMART PANEL PRO

The Smart Panel Pro has a 1.35mm pipe wall, It's lightweight, an easy one person lift and can be transported on the tray of a ute. It comes complete with anti-climb weld-mesh infill for maximum security.

### Dimensions:

**Panel size:** 2400mm (W) x 2100mm (H)

**Frame:** 32mm O.D. 1.35mm pipe wall thickness

**Infill mesh:** 3 x 3mm

**Infill mesh spacings:** 150 x 60mm

**Weight:** 14kg

**Finish:** hot dipped galvanised

Our Temporary Fencing systems fully comply to local council requirements.

## SMART PANEL

This panel has a 1.00mm pipe wall, and like the Smart Panel Pro it's lightweight and easy for one person to lift and transport in the tray of a ute. It also comes with anti-climb weld-mesh infill to ensure maximum security.

### Dimensions:

**Panel size:** 2400mm (W) x 2100mm (H)

**Frame:** 32mm O.D. 1mm pipe wall thickness

**Infill mesh:** 2.5 x 2.5mm

**Infill mesh spacings:** 150 x 60mm

**Weight:** 11kg

**Finish:** hot dipped galvanised

Our Temporary Fencing systems fully comply to local council requirements.

## SEMI PERMANENT FENCING RAMMED POST

When you require something stronger and sturdier than normal temporary fence. Then you need our semi-permanent fencing.

Our Rammed Post system has thick-walled posts which are driven into the ground, and clamped to the panels. Specially engineered and designed to withstand very harsh conditions and high wind forces.

### Benefits:

- Stronger and sturdier than normal temporary fence
- No need to use temporary fence feet and bracing
- No concreting required, no residual damage
- No tripping hazards

The rammed post system is suitable for most civil, commercial, residential, major road and infrastructure

### Dimensions:

**Panel Size:** 2400mm (W) x 2100mm (H)

**Ramming Rod:** 2400mm

## CROWD CONTROL BARRIERS

Quick and easy to install, our strong and durable crowd control barrier system is ideal to keep people safe at events, work sites and gatherings. Stable flat feet, with holes for pegging or dyna-bolting, reduce the risk of tripping. An easy one person lift, these barriers have a robust construction, ideal for long life and regular use. Available in either a heavy duty or regular (ezi) version.

### Dimensions:

**Panel size:** 2200mm (W) x 1100mm (H)

**Frame:** 25mm OD

**Infill pickets:** 20mm O.D. 200mm spacings

**Weight:** 14kg (Ezi) / 18.5kg (Heavy Duty)

**Finish options:** ● galvanised ● orange

**Feet:** flat feet - removable

## CONSTRUCTION BARRIERS

Our industry leading construction barriers are ideal for ensuring public safety on your work-site. Built to include a highly visible netted mesh, with a 30mm x 30mm infill. They are designed to meet the Code of Practice for Temporary Traffic Management's (CoPTTM) requirement for Child Proof In-Filling of security fencing.

### Key features:

- Robust and durable, built for long life and regular use
- Lightweight
- Quick and easy installation
- Hard wearing feet with holes for pegging or dyna bolting to ensure extra stability

### Dimensions:

**Size:** 2200mm (W) x 1250mm (H)

**Material:** high quality PVC combined with water resistant materials

**Weight:** 19kg

---

## NOISE REDUCTION BARRIERS *(Acoustic Curtains)*

Our noise reduction barriers are ideal to protect people from the harmful effects of excessive noise. Perfect for construction sites, events and infrastructure projects.

### Key features:

- Water resistant and durable
- Quick and easy to install with secure hook eyelets
- Low-centred, to ensure noise can't penetrate underneath
- Premium noise reduction with a strong insulated core to produce sound absorption up to 18 decibels.

### Dimensions:

**Size:** 1335mm(W) x 2050mm(H)

**Material:** high quality PVC combined with water resistant materials

**Weight:** 7kgs

**Finish:** secure hook eyelets with velcro strips

---

## TEMPORARY POOL FENCING

Building or renovating a pool? Ensure your site is safe with our high-quality temporary pool fencing.

Whether it is for a public or privately owned swimming pool, we can help. All our temporary pool fence solutions comply with the Building (Pools) Amendment Act 2016. Our barriers are not only reliable, sturdy and secure, but simple and easy to install and dismantle. With self-closing pool gates we ensure the highest level of safety. Providing you peace of mind that all visitors, family or construction workers are safe on your property.

### Dimensions:

**Panel size:** 2000mm long x 1250mm high

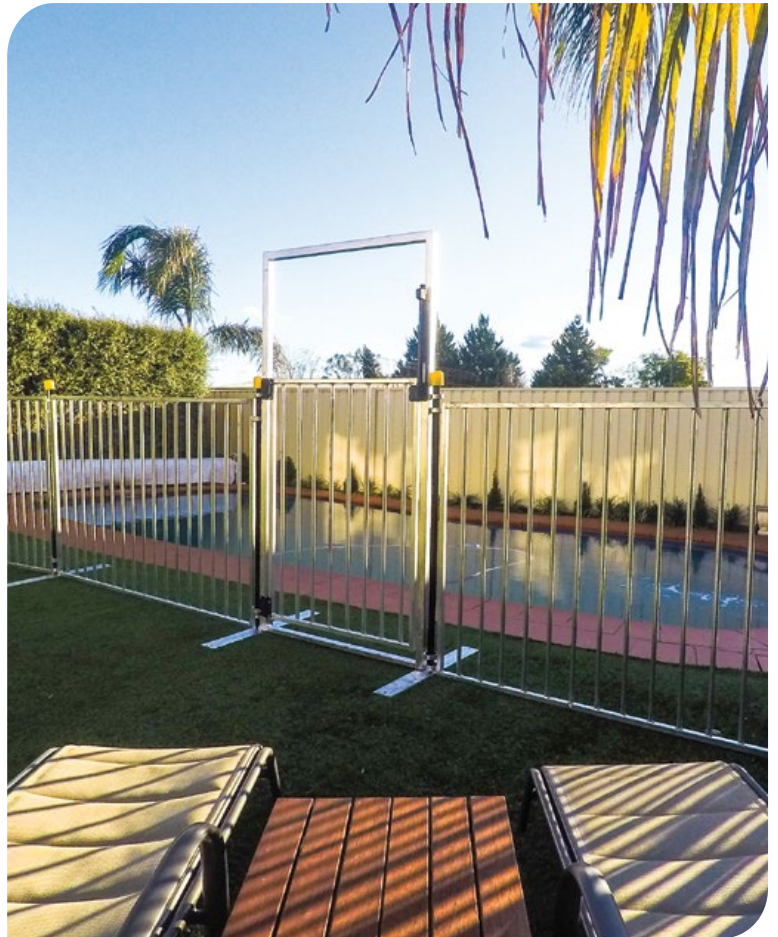

**Frame:** 25mm O.D. tube

**Infill pickets:** 20mm O.D. - 89mm spacing's

**Weight:** 17kgs

**Finish:** fully hot dipped galvanised

\*This product restricts and limits access and should never be used as a substitute to active supervision. Supervision is vital to prevent drownings or water related injuries.

## SOLAR / WIRELESS SITE CAMERAS

Monitor and protect your site and assets with our solar/wireless security camera systems. Available as either single or double camera units with either above ground or in ground installation. Reduce the risk of theft and gain peace of mind that your site or venue has complete 24/7 visibility.

### Benefits

- Solar & Battery Powered
- Uses Telstra 4G Wireless internet
- High quality 4MP camera
- Advanced motion detection up to 20m range
- Email and push notifications to your mobile or tablet when motion is detected
- Flood light & strobe light can activate when motion is detected

## MARINE PORTABLE TOILET

Our heavy-duty option. With its robust construction and twin skin roof for extra durability, this portable toilet is made from high quality components to provide a premium user experience at an affordable price.

### Specifications:

**Material:** twin skin walls, door & roof

**External size:** 1100 (W) x 1100 (D) x 2300mm (H)

**Waste tank:** 280 litre

**Fresh water tank:** 160 litre

**Weight:** 128kg

**Skid base:** galvanised steel

**Door colour:** ● grey

**Wall colour options:** ● blue ● grey

# ADD-ONS AND ACCESSORIES

## SIGNAGE OPTIONS

### BANNER MESH

Printed banner mesh is a high quality, long lasting mesh. 90% mesh it allows for 10% air flow. Suitable for: construction sites, events and hoarding signage. Needing extra impact, we can also customise to your brand.

### OPEN WEAVE

Providing minimal wind resistance, this lightweight material is only 65% mesh to allow for 35% airflow for maximum safety. Suitable for simple logos and images. Ideal for: construction sites, events, scaffolding and can be customised to your brand.

### VINYL PVC\*

Durable and fade resistance, our long lasting PVC vinyl banner provides the best image quality for your brand. Suitable both indoors and outdoors, they can be produced to any size or length. Great for hoarding, billboard signage, events and construction banners.

This product, may not be suitable for all applications, due to wind loads. Talk to us, to find if it is suitable for your site.

### CROWD CONTROL BARRIER SLIPS

Made from polymesh or banner mesh our barrier slips include velcro straps and eyelets for easy installation. They provide a premium branding opportunity for your crowd control barriers.

### **CORFLUTE SIGNAGE & BOARDS**

Designed for exterior signage, promotional and interior graphic applications. Fully customisable, with the maximum sheet size of 2400 x1200mm.

---

### **ANTI-GAWK SCREEN**

Turn your concrete and water filled barriers into the ultimate advertising platform. Ideal to provide privacy or screen work zones. For full block out these can be made in aluminium composite or otherwise banner mesh.

---

### **SHADE COTH**

Ideal for sun protection and privacy screening. Our heavy duty, UV protected shade cloth will last for years. Available in a wide variety of colours.

#### **Dimensions**

**Length:** 50m x 1.83m

**Density:** 30% mesh 70% airflow

---

# ADD-ONS AND ACCESSORIES

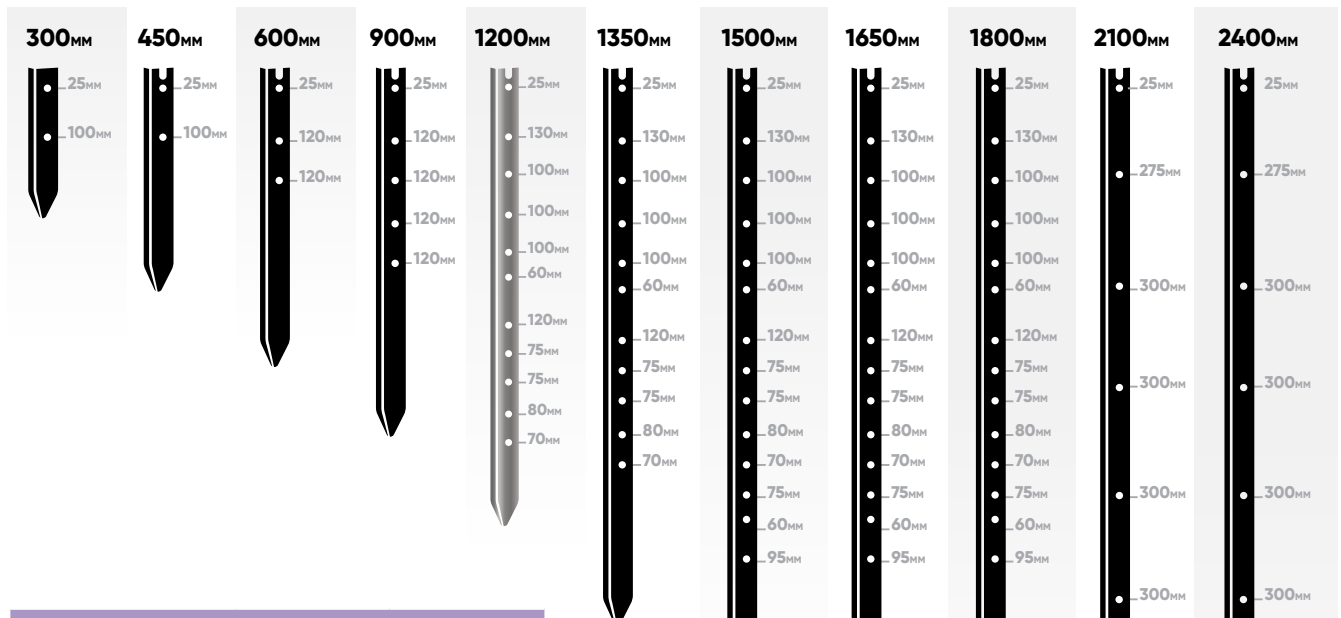

## ACCESSORIES

### Y-POSTS / STAR PICKETS / WARATAHS

Black or Galvanised	2400mm	7 Holes

Weight:	Smart (Black):	Super (Black):	Galvanised:
Per Metre	1.39kg	1.9kg	1.9kg

### CLAMPS

Heavy duty 4mm thick steel clamps are used to join the temporary fence panels together and to attach support stays to the panels. Formed for strength to resist bending and twisting and keep your site secure. Comes complete with a bolt and nut.

**Finish:** hot dipped galvanised

**To fit:** 25mm OD (50mm pitch)  
 32mm OD (71mm pitch)  
 42mm OD (80mm pitch)  
 50mm OD (80mm pitch)

### CONCRETE FOOT 32KG

Plastic concrete filled feet available in hi-vis colours for safety. UV protected for long life, they will outlast plain concrete and rubber alternatives. Well weighted to maintain the stability of the fence. Also available as the unfilled standard shell.

#### Dimensions

**Size:** 570 x 245 x 130mm **Weight:** approx. 32kg

**Concrete:** 32 MPA **Colour:** orange

**Reinforcement:** 2 x 6mm x 530mm deformed bar

**Post Hole Sizes:** 20, 25, 32, 40 and 50mm nb.  
 (26, 33, 42 & 48 O.D.)

### CONCRETE FOOT 28KG

Blow moulded plastic concrete filled feet available in hi-vis orange for safety. UV protected for long life, they will outlast plain concrete and rubber alternatives. Well weighted to maintain the stability of the fence.

#### Dimensions

**Size:** 600 x 230 x 140mm **Weight:** approx. 28kg

**Concrete:** 32 MPA **Colour:** orange

**Reinforcement:** 2 x 6mm x 530mm deformed bar

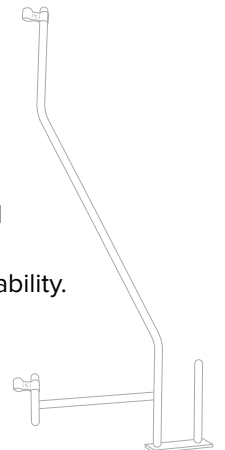

**Post Hole Sizes:** 20, 25, 32, 40 and 50mm nb.  
 (26, 33, 42 & 48 O.D.)

### SUPPORT STAYS

Our specially designed support stays provide extra bracing strength to help prevent your temporary fence falling over in high wind areas or, if shade cloth has been installed. It can be used individually, or in conjunction with our hook stays for ultimate strength and stability.

- Requires 1 to 3 feet and 2 clamps
- Can be used with up to 5 feet for some wind requirements

### DOG BARS

Ideal for containing animals within a fenced area. Prevents children/balls going under the fence on school construction sites.

#### Dimensions

**Size:** to suit 2.4m panels

**Weight:** 2.7kg

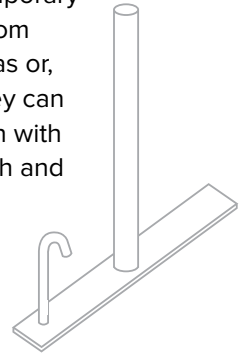

**Finish:** hot dipped galvanised - 42 micron

### HOOK STAYS

Our specially designed hook stays act as an anchor point along the bottom of temporary fence panels to help prevent them from lifting or falling over in high wind areas or, if shade cloth has been installed. They can be used individually, or in conjunction with our support stays for ultimate strength and stability.

- Requires 1 to 3 feet
- Can be used with up to 5 feet for some wind requirements

### HAND RAILS

Reduces potential trip hazard from fence feet protruding onto a walkway in pedestrian traffic areas.

#### Dimensions

**Size:** 2400mm x 300mm - 2.4m panel

**Weight:** 4.5kg,

**Finish:** hot dipped galvanised - 42 micron

### PANEL STILLAGES

Stillages make the storage, handling, and transportation of large numbers of panels safe & efficient.

#### Specifications

To suit 2.4m panels

**Finish:** anti rust paint

**Colour:** ● yellow ● galvanised

### PEDESTRIAN GATE

One metre wide gate provides pedestrian only access to your site.

#### Dimensions

**Panel Size:** 1100mm (W) x 2100mm (H)

**Frame:** 32mm O.D. 2mm pipe wall thickness

**Infill Mesh:** 4mm x 4mm, 150mm x 60mm spacings

**Finish:** hot dipped galvanised - 42mMicron

---

### GATE HINGE CLAMP

Heavy duty 4mm thick steel gate hinge clamps are used to allow pedestrian gates and temporary fencing panels to swing freely. This clamp will suit 32mm OD pipe.

#### Dimensions

**Size:** 25mm/25mm nb (71mm pitch)

**Finish:** hot dipped galvanised.

---

### GATE WHEELS

Attached to pedestrian gates or panels, our gate wheels allow gates to be opened and closed more easily. Available in standard and heavy duty models.

---

### LOCK & CHAIN

Sturdy 8mm galvanised chain and heavy duty brass padlock. The lock comes with 3 keys in total.

---

### TEMP FENCE METAL FEET

Alternative to concrete filled plastic feet. Reduces tripping hazard. Able to be pegged into earth or dyna-bolted into concrete surfaces for extra stability.

**Size:** 750mm (L) x 150mm (W) x 10mm plate

**Weight:** 8kg

**Finish:** hot dipped galvanised - 42 micron

### METAL PEGS

Our metal pegs are used with crowd control barrier feet or temporary fence metal feet to provide extra stability on earth.

**Size:** 400mm x 12mm diameter

**Finish:** hot dipped galvanised - 42 micron

### GROUND PROTECTION MAT

HDPE 2400 x 1200mm checkered style

Our ground protection mats protect grass and soft ground from tyres and prevent vehicles from getting stuck.

**Size:** 2400 x 1200mm

**Thickness:** 12mm

**Weight:** 36kg

**Load rating:** 40t

**Material:** HDPE - UV-stabilised polyethylene resin

### ORANGE SAFETY FLAGGING / BUNTING 30M

Our 30m orange safety flags on heavy duty rope is suitable for construction sites, roadworks and events. Ensuring you have high visibility surrounding your worksite or hazard.

#### **ORANGE SAFETY FLAGGING / BUNTING 100M**

Our 100m orange safety flagging/bunting on heavy duty rope is suitable for constructions sites, roadworks and events. Ensuring you have high visibility surrounding your worksite or hazard.

---

#### **TRAFFIC BOLLARDS 100X1150MM**

Suitable for marking out hazards on the road, public area or worksite and directing both vehicle and pedestrian traffic. Made from highly durable, UV treated, PVC plastic. For increased visibility, fitted with an industry standard 3M reflective band.

**Size:** 100 x 1150mm

**Weight:** 3kg

---

#### **TRAFFIC BOLLARD BASE 420X420MM 6KG**

Our T-top bollard base is made from highly durable polyethylene rubber.

**Size:** 420 x 420mm

**Weight:** 6kg

---

#### **ORANGE BARRIER MESH 1M X 50M**

Providing high visibility and restricting access to hazards.

**Size:** 1 x 50m

**Weight:** 5kg

---

**ORANGE BARRIER MESH PACKS (50M / 100M)**

Providing high visibility and restricting access to hazard. Buy in a convenient 50m or 100m pack!

**Pack includes:**

- Orange barrier mesh roll/s
- Y-Posts / Star pickets / Waratahs
- Wire roll
- Y-Post / Star picket / Waratah caps
